

Product Handling Information Sheet

GEHR PET®

1. Manufacturer

GEHR GmbH
Casterfeldstraße 172
68219 Mannheim
Deutschland
Tel. +49 621 8789-0
Fax +49 621 8789-200
Info@gehr.de
www.gehr.de

2. Product Description

Article	Engineering semi-finished product
Abbreviation	PET
Material characterization	Thermoplastics
Main components	Polyethyleneterephthalate contains event. pigments, stabilizers and additives
Marking obligation components	None
Classification according to REACH	Product

3. Product Properties

Form / Condition	Rods, Sheets / Solid
Colour	natural, black, other colours on request
Odour	odourless
Density	1,30 - 1,40 g/cm ³
Melting temperature	ca. 245 °C
Thermal decomposition	> 300 °C
Ignition temperature	- °C
Solubility in water	insoluble

Risks	no special risks for humans or animals
Substances to avoid	secure the contact with acids and acid-forming products, chlorinated hydrocarbons and hot water.

4. Handling and Storage

Machining	The product can be machined with standard machinery and tools. Before machining the product should be stored at room temperature 24 h. Evacuate swarf to prevent slipping or tripping. Observe the maximum allowable concentration of dust levels on the working area which apply in your country. Wear safety goggles during machining. General dust limit value: Respirable dust (6 mg/m ³); Inhalable dust (10 mg/m ³)
Storage	The products shall be stored indoor to keep away from any source of degradation such as sunlight, UV-jets, ionizing radiation, chemicals, ...
Safety measures	The general industrial safety measures should be considered. A thermal damage during machining should be avoided.

5. Fire-fighting Measures

Suitable extinguishing agents	Water, foam, dry chemical, carbon dioxide (CO ₂)
Potential combustion	Carbon dioxide (CO ₂), carbon monoxide (CO), formaldehyde (CH ₂ O). Formation of further decomposition and oxidation products depend upon the fire conditions. Under special fire conditions traces of other toxic substances are possible.
Special protective equipment	Wear a self-contained breathing equipment. If exposed to combustion fumes bring the victim into fresh air.
Further information	Dispose of fire debris and contaminated extinguishing water in accordance with official regulations.

6. Disposal Considerations

European waste catalogue	According to the "European Waste Catalogue and Hazardous Waste List" uncontaminated waste from the products is not classified as hazardous. Following code numbers can be used: <table> <tr> <td>070213</td><td>waste plastic from manufacture, formulation, supply and use of plastics,</td></tr> <tr> <td>120105</td><td>plastic shavings and turnings</td></tr> <tr> <td>160119</td><td>plastic, from end-of-life vehicles from different means of transport and wastes from dismantling of end-of-life vehicles and vehicle maintenance</td></tr> <tr> <td>170203</td><td>plastic construction and demolition wastes</td></tr> <tr> <td>200139</td><td>plastics from municipal wastes</td></tr> </table>	070213	waste plastic from manufacture, formulation, supply and use of plastics,	120105	plastic shavings and turnings	160119	plastic, from end-of-life vehicles from different means of transport and wastes from dismantling of end-of-life vehicles and vehicle maintenance	170203	plastic construction and demolition wastes	200139	plastics from municipal wastes
070213	waste plastic from manufacture, formulation, supply and use of plastics,										
120105	plastic shavings and turnings										
160119	plastic, from end-of-life vehicles from different means of transport and wastes from dismantling of end-of-life vehicles and vehicle maintenance										
170203	plastic construction and demolition wastes										
200139	plastics from municipal wastes										

Waste disposal

If recycling is not possible, waste disposal by landfill or incineration in compliance with state and local regulations. The product do not contain pigments or stabilizers based on cadmium. The product is not biologically degradable, but based on the present state of knowledge no negative effects on the environment may be anticipated.

7. Marking and Guidelines

Marking in accordance
EEC guidelines

Not subject to labelling.

Other guidelines

None

Transport regulations

Not classified as hazardous good under transport regulations.

8. Other Information

According EG directive 1907/2006/EG (REACH), our products are clearly defined as articles, exempt from registration. The European regulation (EV) about chemicals, which came into force June 1st, 2007, prescribes Material Safety Data Sheets (MSDS) only for dangerous substances and preparations. According REACH we are manufacturing articles and we are not required to issue MSDS.

All above mentioned information are based according to today's state of knowledge and supply no warranty of quality. Existing laws and regulations must be observed by the recipient of our products on his own authority.
